Introduction

Alvan Steel Iranian Co., Ltd. is registered in Tehran, Iran with more than a decade of experience in import and export of goods. We have been supplying raw materials for production lines of Iranian factories from different countries across Europe and Asia such as S. Korea, China, Russia, Italy and Turkey, to name just a few. Believing in our potentials and experienced human resources as well as incredible natural resources in our country, we have expanded the scope of our trading activities to export of goods to different countries all over the globe and, more specifically, EAEU countries.

For this purpose, we mainly focus on fresh & dried fruits, vegetables, nuts and other industrial food products like jams, tomato paste, juice, canned food, etc. Our first priority is to form an integrated supply chain management system to facilitate the process from the farms to target markets. We always welcome new partners and customers for long term partnership & cooperations.
